

# 2021 Ford Mustang Mach-E

## Car Wash Mode

Engaging neutral lock for towing when the cluster does not show "ready"

**Turn off the vehicle.**

If the 12V was depleted, a jumper box must actively be attached to the 12V battery to manage this process.

**Start the process by pressing the push-button-start (foot NOT on brake) to enter accessory mode.**

1

Press the accelerator **AND** brake all the way down.

2

Shift the vehicle from **P** (Park) to **N** (Neutral) while holding both pedals all the way down.

3

Press the **"L"** button in the center of the rotary dial.

4

The gearbox remains in Neutral for 30 mins.
