

Fuel Cell Hyundai Tucson

Identification

Fuel Cell powered Tucsons are relatively easy to identify apart from the standard Tucson. The most permanent identifier is the number "6" in the 8th position of the VIN (Vehicle Identification Number).

Other Fuel Cell Specific Identifiers

Blue background in grille badging

Fuel filler door labeled "Fuel Cell"

Green hydrogen gas decal and fitting in filler door

"Fuel Cell" and "compressed hydrogen" decal on liftgate

"hydrogen EV" badging on bottom of rear doors

"blue drive" badging on front doors

"blue drive" and "Fuel Cell" in cluster

Hydrogen sensor in headliner
