

2021–2024 Polestar 2

Charge Door & Charge Cord

The Charge Door on Polestar 2 is on the driver side quarter panel. Press in on the rear part of the door to open.

When assisting Polestar 2 customers with charging their vehicle, simply insert charge coupler into charging input socket until it latches. Status light will change colors, first yellow (communication), then to flashing green (charging). To interrupt charging or end the session and remove the charge coupler from the charge input socket, press the release button on the vehicle then the latch on the back of the charge coupler to disengage from socket. Charging will resume and coupler locked in again if not removed from the vehicle.

Status Light Guide:

White	Yellow	Flashing Amber	Flashing Green	Steady Green	Blue	Red
Perimeter Lighting	Communication, waiting to begin charging	Charging will be interrupted	Charging in progress	Charging Complete	Scheduled Charging active	Fault
