

WARNING

Please do not install the temporary spare tire on the front wheels of any FWD Mazda Vehicle. These spare tires do not properly fit on the front tires and if attempted, damage to vehicle can easily occur.

Please move a regular tire to the front wheel and install the temporary spare tire to the rear.

Please remove the rear tire, use this on the front axle and use the temporary spare on the rear axle.

ASG will pay the additional time required to perform this requested service.
